### Verdot:

We are excited to announce our association with **VERDOT** (<https://www.verdotips2.com/>), one of the leading supplier of Chromatography Columns and Systems for Biopharma and Pharma Industries. PharmNXT Biotech LLP will be the Exclusive Partner of VERDOT in India and will be responsible for Pre-Sales, Project Management, Commissioning and Post-Sales activities of all the products supplied by VERDOT in the Indian Market.

VERDOT has expertise in designing, manufacturing and commissioning of large-scale purification equipment based on "Process Needs" of customers. VERDOT has successfully commissioned their equipment for several large Biopharma projects around the world, starting from the development phase to commercial scale manufacturing.

The Products includes:

- **PilMod Chromatography Columns:** 5 cm to 20 cm; Pilot and small-scale process columns
- **InPlace Chromatography Columns:** 20 cm to >100 cm; Inplace packing and unpacking columns
- **EasyPack Chromatography Columns:** 20 cm to >100 cm; Open Top end packing columns
- **AgiChrom Agitated Chromatography Columns:** Agitated chromatography columns for special applications
- **FlexPro; Process Chromatography Skid:** Disposable flow path chromatography system for various application
- **MiniPro; Benchtop process chromatography Skid:** Pilot scale system with 120 LPH capacity
- **Process Chromatography Skid:** From Pilot benchtop to large scale chromatography system

The Philosophy followed by VERDOT for designing the chromatography systems is to use the technology base platform and build a solution based on customer's process needs, we sincerely believe that this philosophy helps in getting the most optimal and efficient solution for the customers.

Best Regards,  
Team PharmNXT Biotech
